Subject: County's "Santa Cruz Just Like Me" Survey Should Include All County Commissions but is Not Including the FDAC?

Dear Fire Dept. Advisory Commission,
I understand that the County 2023-25 Strategic Plan will rely on input from County Commissions and Boards in a "Santa Cruz Like Me" Survey and Report, however the Survey response was low.

This data is currently being gathered in more detail via a Survey that will shape who is able to serve on County Commissions.:

Because further Survey work is apparently nearing completion, and the data will be used to shape the 2023-2025 County Budget, I think the FDAC needs to participate.

I have not seen this matter included on the FDAC agenda. Please include this on the November 16 FDAC agenda for public discussion and action.

This information came to my attention while attending the November 9, 2022:
